11/26/98

Dear Gerry,

Thanks for the Schlesinger defense of JFK from Hersh's unjustified attack on him. If you and the others did not know, some time ago I finished a book-length manuscript that Clay retyped, Faking Kennedy; With Hersh-It journalism.

I hope Bill enjoyed being on the Arnold program and that it leads to some appearances for him.

Thanks for your goor wishes.

Hopefully the blood problem in Lil's legs is past because the hospital has put her back in the p.t. program on which she'd been doing well.

Saturday I got to Johns Hopkins where again I am a hemotology patient for an operation for access for kidney dialysis. Ordinarily out-patient, they'll be getting the anti-coagulent out of my blood the first two days, will operate Tuesday, and Wednesday and all or part of Thursday will be used to get enough anticoagulent back in the blood.

Thanks and best to you all,

Harold
